

## How we are making Just Camps safe for your return!

We have been working hard to plan and implement safe practice, in line with the 'new norm' that we all currently face.

Just camps is one of the only physical activity providers in the area who operate as an **Ofsted registered childcare provider**. You can be rest assured that our service will be of the highest safety standards.

To provide greater reassurance to all customers, we have created a **six point strategy** on how we are making our Camps a safe place.

### Space and Social Distancing

Venues are marked out in line with government guidance and group sizes are reduced with children in designated bubbles.

### Hygiene and Cleanliness

Hand washing stations are available and hygiene procedures are clearly displayed at the venue.

### Managed Sign In/Out

Your child will have a personal lanyard showing their group and name to ease sign in. A temperature control will be in place before entry.

### Staff Training

All team members have received the relevant training and support to ensure safe practice.

### Safe Activities

All equipment is cleaned before and after use with timetables amended to ensure only non-contact activities are delivered.

### Policies and Procedures

Our provision is Ofsted registered and adheres to regulations, including adaptations for Covid-19.
